What is the Best Part of Being an administrator at Pawnee? I am thankful for the staff we have impacting the students in the Pawnee School District. I know the adults in the building are a positive influence for our students. Our students are top notch. They are talented in academics, athletics, and the arts. When I tell other school administrators, "We have good kids!" I say it very proud because we do have good kids. I am proud of the close bond our school system and our community allow each student to have with one another. Pawnee is good community that supports our school district and that alone allows our kids to benefit once they leave the halls of Pawnee.
