Interests or Hobbies: I love traveling with my husband and 3 boys (and new grandbaby!) and hanging out with friends and family doing almost anything!!

Favorite Musical Artist or Band: I like about anything Country, Pop or Rock

Why I decided to go into education: I have a large family and have always loved children. I come from a family of educators including my grandfather who was a lifelong, beloved educator, coach, principal and regional superintendent who encouraged me to explore special education. I also have an aunt and uncle who were teachers, so it made sense based on my experience and interests.

What is the Best Part of Being a Teacher at Pawnee? I have found Pawnee to be a terrific, small community! I love the family atmosphere between staff as well as students at the grade school. Everyone is very supportive of one another.
