What has been the most difficult aspect of the COVID pandemic for you? I hate not being able to travel to see relatives and friends.

What would you like to tell your students during this difficult time?

Please be patient and organized. This is not what we expected or wanted, but we will get through it. It will be a memory you will share with your children and grandchildren.

What is the Best Part of Being a Teacher at Pawnee? I like the relationships that we build with our students. Since we are such a small school district, I have watched students start kindergarten and progress over the years to graduate from Pawnee High School. It is one of the best things about teaching in a small school.
