Cardinals/Cubs/Neither: Cardinals and St. Louis Blues

What has been the most difficult aspect of the COVID pandemic for you? Making sure that all students' educational needs are being met is my school answer, but really it was not being able to see my parents.

What would you like to tell your students during this difficult time? If you are struggling academically or emotionally, please talk to someone. Teachers, counselors, social workers, and school psychologists are always available to support you :)

What is the Best Part of Being a Teacher at Pawnee? The excellent staff!
