Interests or Hobbies: Reading, traveling with my family, shopping with my daughter

Cardinals/Cubs/Neither: Cubs

What has been the most difficult aspect of the COVID pandemic for you? Trying to keep life as normal as possible with my two children while visiting with family virtually and in person, understanding my own concerns about the pandemic while also trying to decide what to believe as things change and trying to manage my own feelings and concerns about how to keep my children safe while also doing my job to the best of my ability..

What would you like to tell your students during this difficult time?

We can do this together! We will still have fun and be able to see each other just a little differently.

What is the Best Part of Being a Teacher at Pawnee? We help each other. We have rallied around each other to share resources, provide help and have supported and encouraged each other through all of the new things we are learning together.
