**Interests or Hobbies:** Exercising, shopping, and spending quality time with my family.

**Cardinals/Cubs/Neither:** Both-I just love watching the sport!

### **What has been the most difficult aspect of the COVID pandemic for you?**

Teaching kindergarten remotely is quite the adventure! I miss the human connection side of teaching as well as getting daily hugs from my Kinder-friends. I can't wait to put the computer screen down and welcome my Kinder-friends with open arms.

### **What would you like to tell your students during this difficult time?**

Be positive and have a good attitude like "Pete the Cat." We will get through this together.

**What is the Best Part of Being a Teacher at Pawnee?** I think there are many things that set our school apart from other districts in the area, but the one thing that stands out to me is the family-like atmosphere you feel when you enter the building. Together, our staff members dedicate their time, resources and love to our amazing students. I feel so blessed and grateful to be part of this wonderful school community.
