Interests or Hobbies: Spending time with my family, watching my kids sports (dance, soccer, baseball), reading, attending concerts/theater events.

Favorite Musical Artist or Band: U2, Garth Brooks, Basically all things from the 90s.

Why I decided to go into education: I have always loved working with people and I have always loved learning new things. I worked in preschools, K-12 buildings, and in colleges/universities but I am happy to be back in a traditional school setting!

What is the Best Part of Being a Teacher at Pawnee? Coming from a very large urban area, I love the way Pawnee is a community based school. There is a partnership and we are willing to work together to support students.
